ANTON 安通

- I **The Road of Anton's Innovative Development**
- II **Globalization Market**
- III **Anton Innovative Culture**
- IV **Anton Comprehensive Oil & Gas Development Solutions**
- V **Value System**

I . The Road of Anton's Innovative Development

ANTON 安東

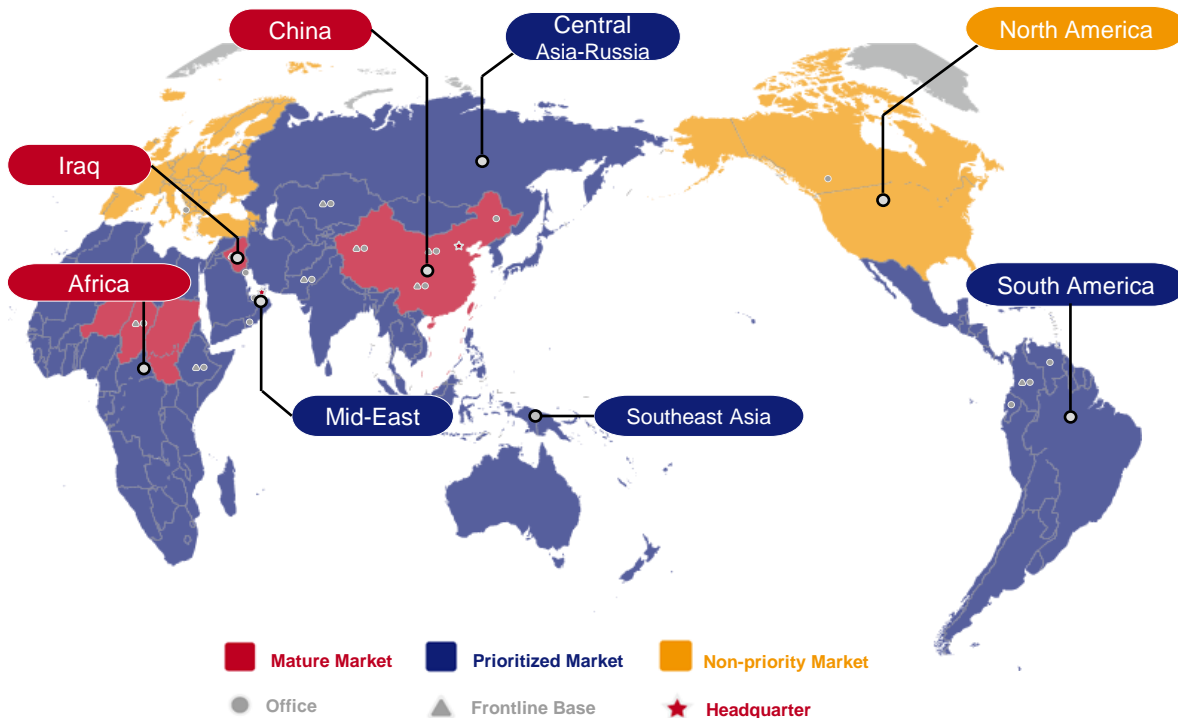

✓ The Road of Anton's Development:

Seized a fourteen-year industry opportunity to develop and grow; rapidly expand internationally in the face of a six-year market downturn; renew and reform internally in pandemic times;

In the future, Anton is dedicated to innovative development, platform-based development, and comprehensive solutions for oil and gas development!

II. Globalization Market

Anton is committed to deepening presence in emerging markets in the global oil and gas development sector, establishing a comprehensive market network over 30 countries and regions to serve clients in China, Middle East, Africa, Central Asia, Southeast Asia, and the Americas.

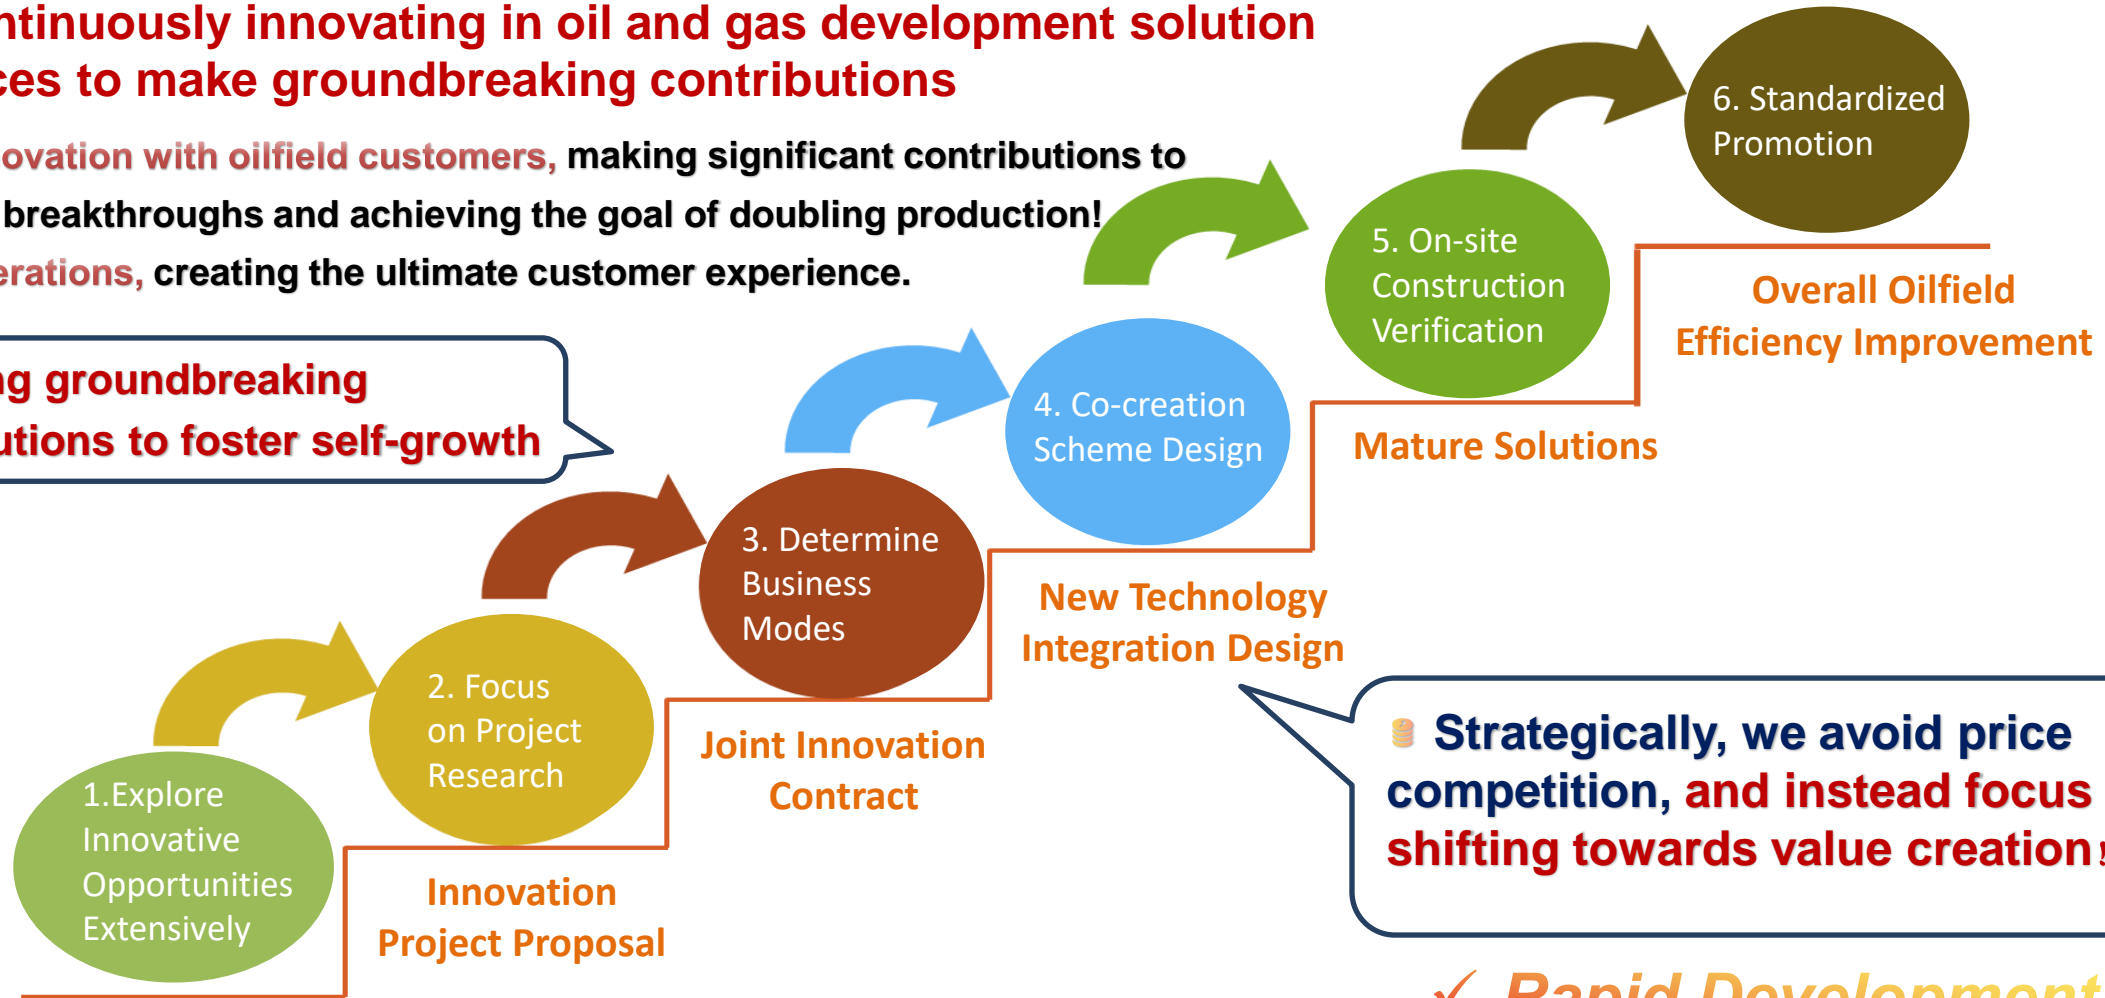

No.	Region	Current Markets
1	China	Southwest Oil and Gas Field, Daqing Oilfield, PetroChina Liaohe Oil, Jilin Oilfield, Changqing Sulige, Tuha Oilfield, Tarim Oilfield, Xinjiang Oilfield, Tuha Oilfield, Northwest Bureau, Sichuan Shale Gas Company, Changqing Oilfield, Yanchang Oil and Gas, Sinopec North China Bureau, Yamei Energy, Cenetec
2	Iraq	Zhenhua East-Baghdad, Rosneft, Oasis Petroleum, CNPC Hafalya, CNOOC Buzurgan, BOC Makinu, West Gurna 2, 9 Blocks, Siba Gas Field, Intercontinental-NK, West Gurna 1, ENI Zubair
3	Africa	Chad, Niger, Uganda, Ethiopia, Libya, South Sudan, Algeria, Nigeria, Kenya, Ghana, Egypt, Tanzania
5	The Middle East	Oman, UAE, Kuwait, Saudi Arabia
6	Central Asia-Russia	Kazakhstan, Turkmenistan, Russia, Uzbekistan
7	Southeast Asia	Pakistan, Indonesia, Australia
8	Latin America	Ecuador, Colombia, Peru, Venezuela, Mexico
9	North America	Canada, USA

III. Anton Innovative Culture

1. Continuously innovating in oil and gas development solution services to make groundbreaking contributions

- ① Joint innovation with oilfield customers, making significant contributions to production breakthroughs and achieving the goal of doubling production!
- ② Lean operations, creating the ultimate customer experience.

📌 Making groundbreaking contributions to foster self-growth

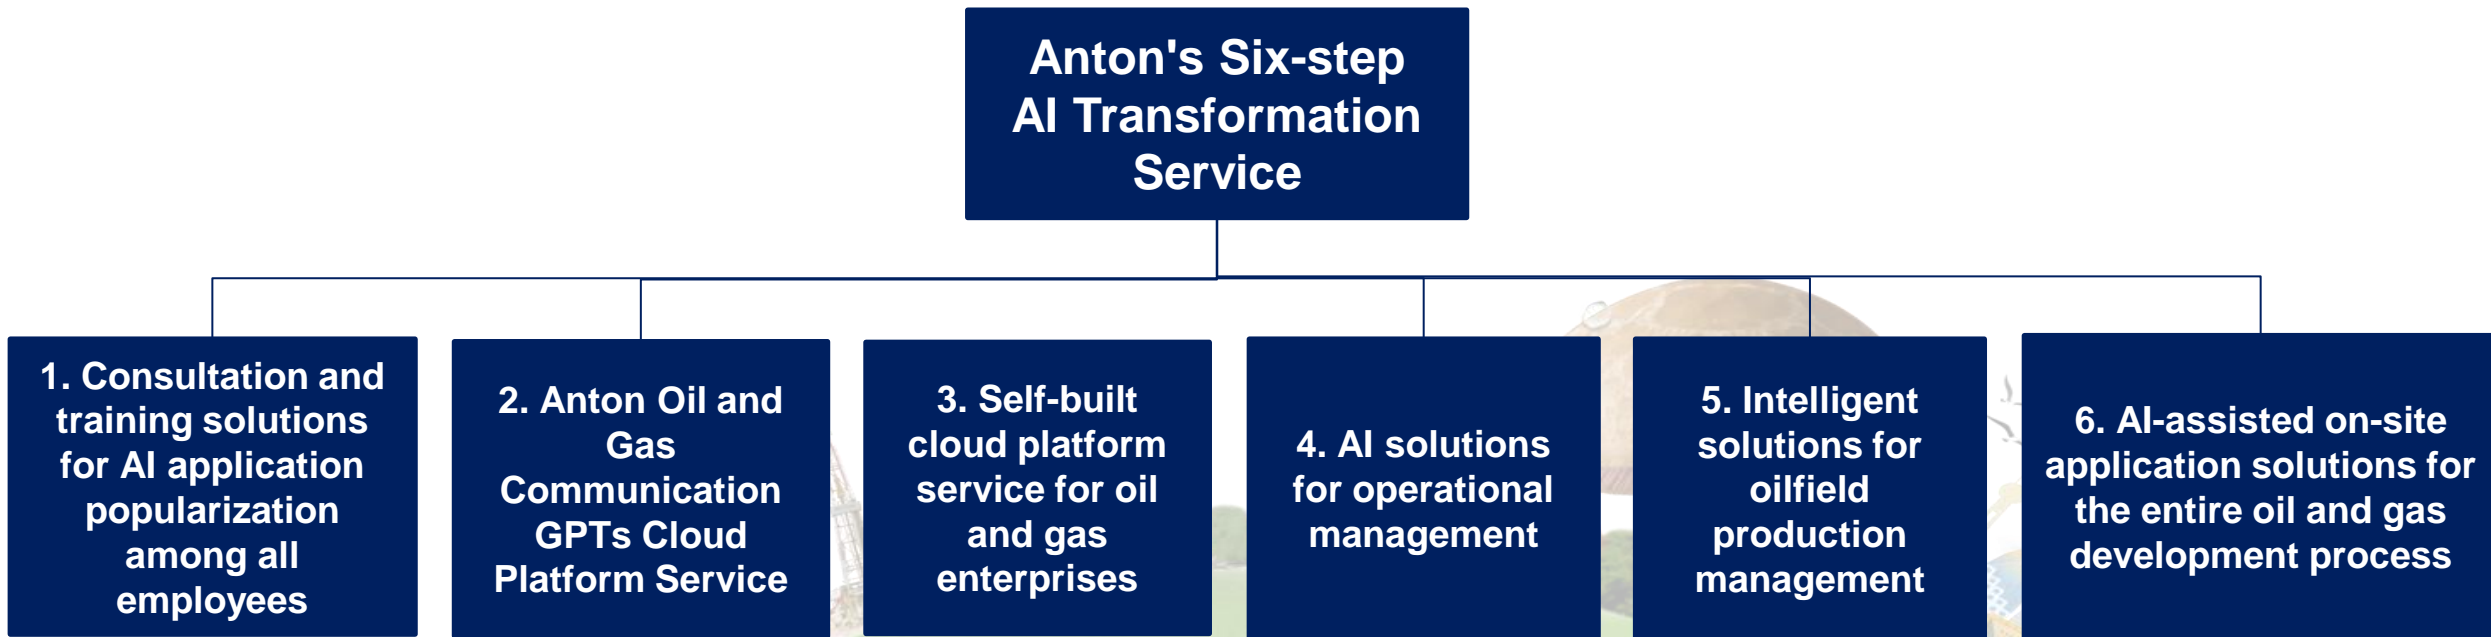

Joint Innovation Intension

Anton's innovative solutions for increasing unconventional production

✓ Rapid Development, High-quality Development

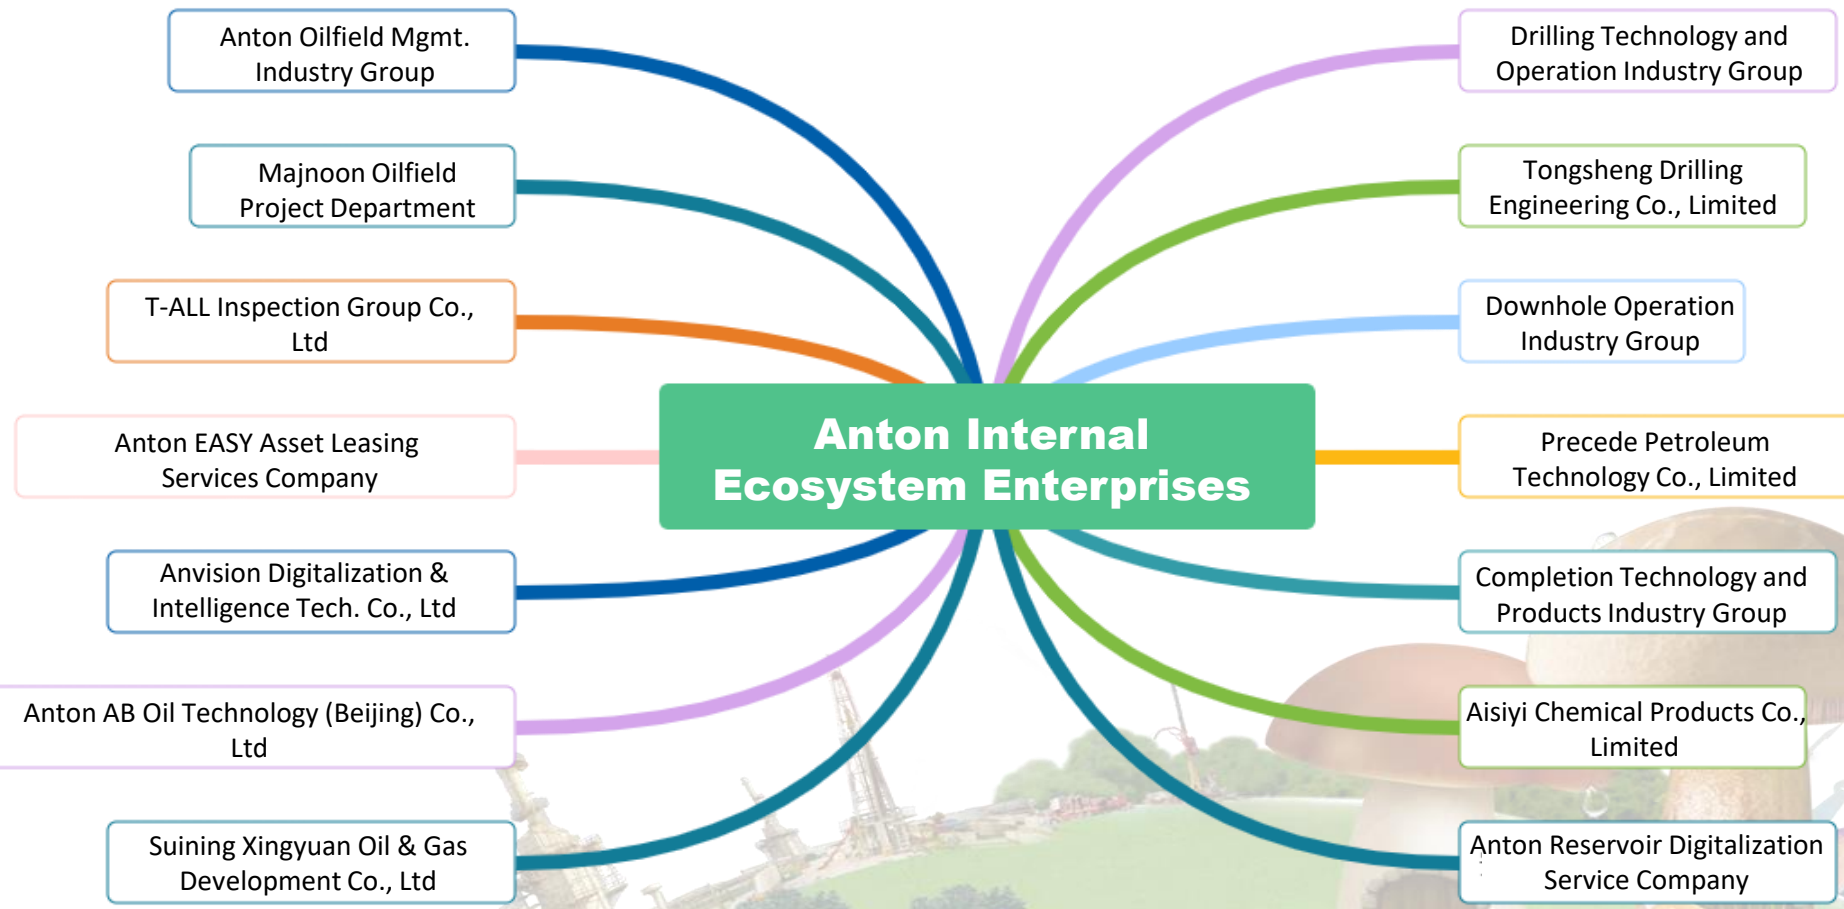

2. AI Transformation

- Anton proposes AI solutions for the oil and gas industry, presenting the “Anton Six-step AI Transformation” service for ecological enterprises. It assists clients in achieving widespread AI applications, rapid transformation, and implementation.

III. Anton Innovative Culture

3. Differentiated Development, Agile Operation by Multiple Entities

① Transformation of internal industry ecological enterprises for independent operation.

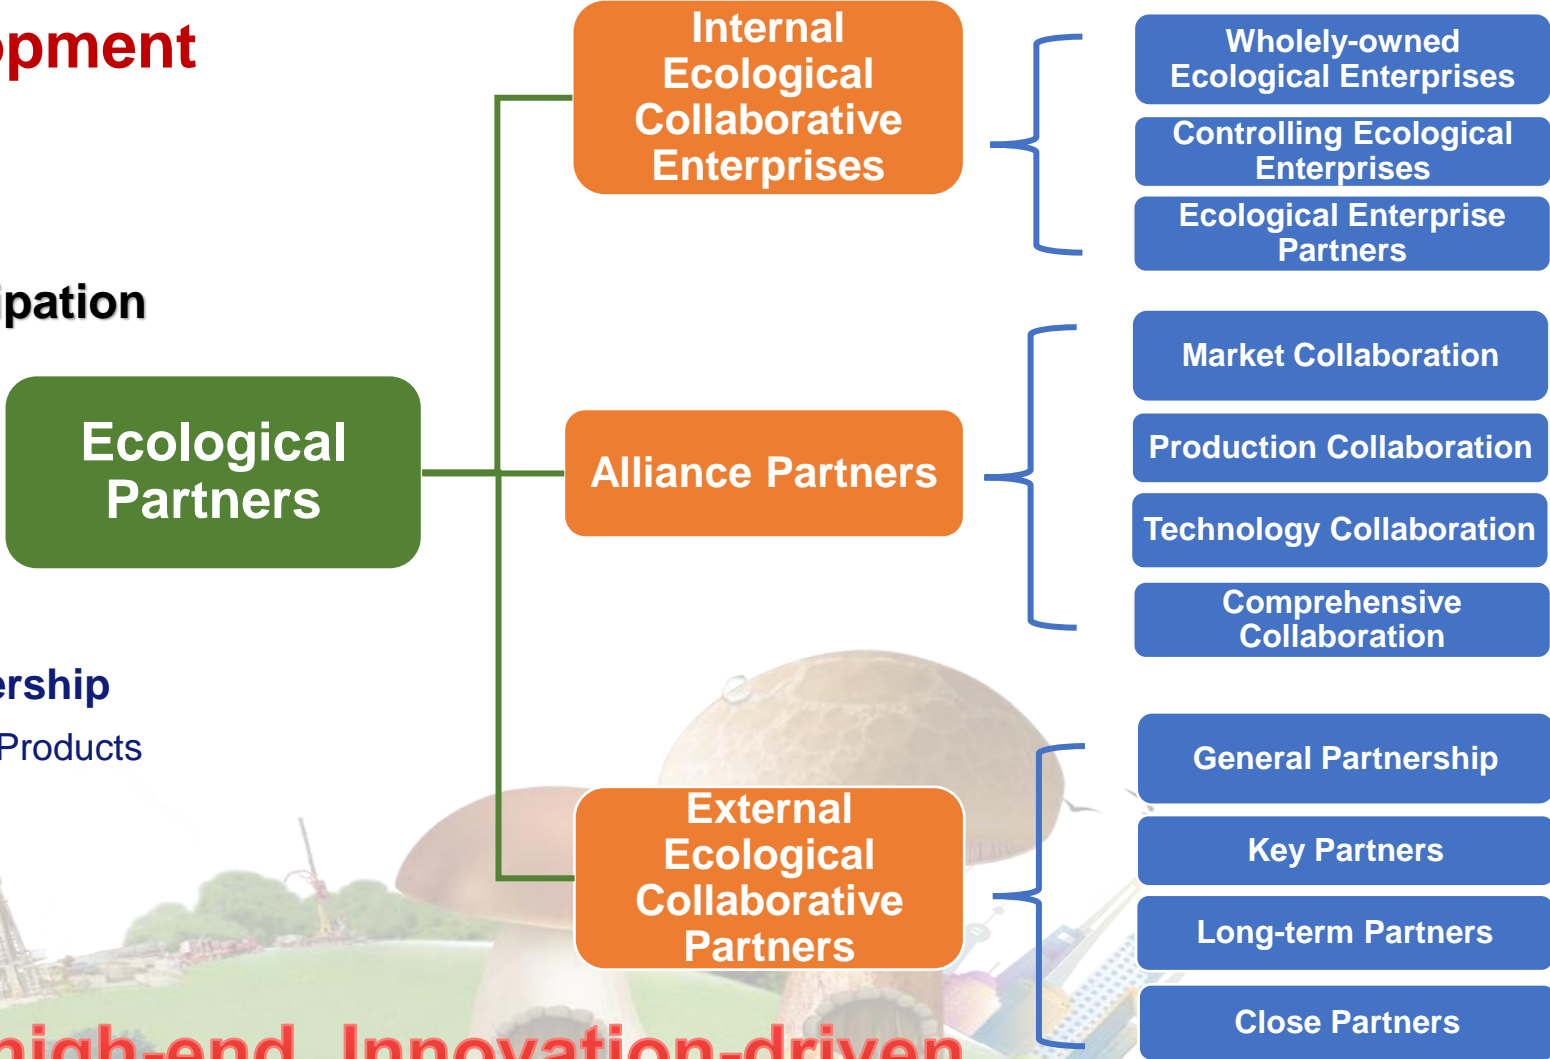

② T-all Inspection listed on the A-share market, while Anton Oilfield Management completed the overseas listing.

③ Partner operation, employee stock ownership plan fully implemented.

III. Anton Innovative Culture

4. Ecological Co-development

- ① Comprehensive Cooperation
- ② Investment and Equity Participation
- ③ Alliance Collaboration

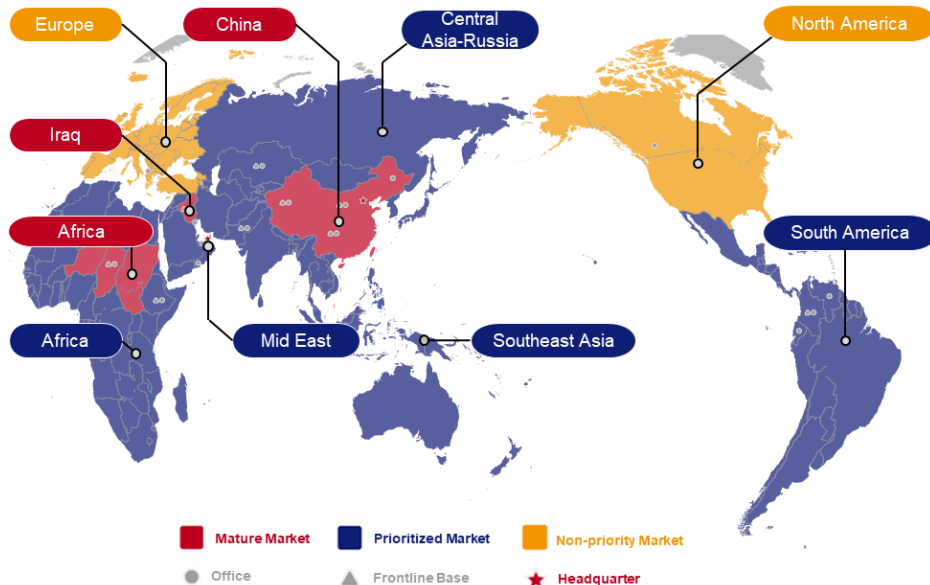

- **Characteristics of Alliance Partnership**
 - Complementarity of Resources and Products
 - Close Collaboration
 - Long-term Collaboration
 - Mutual Restraint

Specialized, high-end, Innovation-driven

5. Platform Empowerment

- Continuously expand the global market network to achieve **comprehensive global coverage**, establishing an **integrated online and offline** oilfield service sharing platform, to empower all stakeholders in the industry ecosystem and **drive growth**.

◆ Global Market Network spanning 30+ countries and regions

◆ E-commerce Platform

- Anton Online Services

ANTON ONLINE

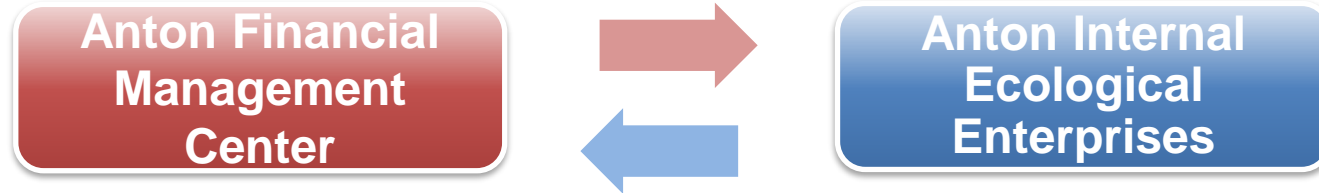

- AT Mall, for Business Collaborations

Through our online and offline platforms, we collaborate with partners to facilitate business operations and empower all stakeholders in the ecosystem.

6. Business Financialization - Business Model Innovation

① Cash Flow Management

② Professional Financial and Asset Services

③ Business Financialization

✓ How to obtain future cash? - Business Model Innovation

III. Anton Innovative Culture

7. Leadership-Driven Company - Cultivating Innovative Talents

✓ **Great enterprises thrive alongside great talents.**

Oil and Gas Field Development Solution Experts	<ul style="list-style-type: none">● Cultivating oil and gas field development experts with the ability to research customer core business and design solutions.
Engineering and Technological Innovation Experts	<ul style="list-style-type: none">● This includes characteristic technical experts in petroleum engineering technology, mechanical design, etc., cultivating engineering and technical experts with key link technical capabilities.
Oil and Gas Digital Intelligence Experts	<ul style="list-style-type: none">● Cultivating oil and gas development digital intelligence experts with the ability to intelligently develop and manage oil and gas.
Large-Scale Project Managers	<ul style="list-style-type: none">● Having the ability to execute the entire project and project management, including construction design, quality management, etc., while also needing to have the overall solution management capabilities of large-scale project managers, starting from the grassroots to become a project manager.
Industry Leaders	<ul style="list-style-type: none">● Having industry resource mobilization and integration capabilities, platform influence, mainly referring to positions such as business unit operations, supply chain, platforms, etc.
Super Representatives	<ul style="list-style-type: none">● In line with core competencies, cultivate a group of super brokers with customer and brand influence.
Senior Operations Managers	<ul style="list-style-type: none">● Digital-driven financial management, operational risk management, including legal, audit, and human resources.
Senior Operators	<ul style="list-style-type: none">● Include engineers who oversee site checks and construction operations in the senior operator training program.

8. Anton's Collaborative Labor Model - Management Innovation

◆ Daily Motivation Meeting, Be Passionate!

- Requires motivation and communication among all levels and aspects, aiming to establish a multidirectional mechanism. The host serves as a catalyst and mentor, with the main participants being teams at all levels and all employees.
- The Daily Motivation Meeting is scheduled every day from 15:00 to 16:30 Beijing time.
- The participants of the Daily Motivation Meeting include all relevant personnel, utilizing the Group's global co-working platform along with precise attendee connections.

9. Rapid Evolution - Efficient Innovation

- ① Maintaining balance amidst chaos, and **adapting quickly to the environment**
- ② Real-time response, **short cycles, and fast pace**
- ③ Rapid iteration, **allowing mistakes**, small team innovation, and **low-cost trial and error**
- ④ Fast learning, **growth mindset**, and elimination of the last-place
- ⑤ **Rapid growth**, rapid expansion of teams, and **compatibility with mature talent**

As Global Oil & Gas Development Companies Increasingly Seek for Sustainability in their Development of The Future, Anton Provides Comprehensive Solutions!

9 Natural Gas Development and Utilization Industrial Chain Solution

8 Oil & Gas Development External Resource Platform Service Solutions

1 Oil & Gas Development Overall Solutions

7 Oil & Gas Green Development Asset Leasing Solutions

2 Stimulation, Efficiency Improvement Research and Optimization Solutions

6 Oil & Gas Development AI Solutions

3 Visualized and Data-based Monitoring Solutions

5 Oil & Gas Development Quality and Safety TIC Solutions

4 Oil & Gas Well Precision Engineering Technology Solutions

Sustainable Development, Comprehensive Solutions!

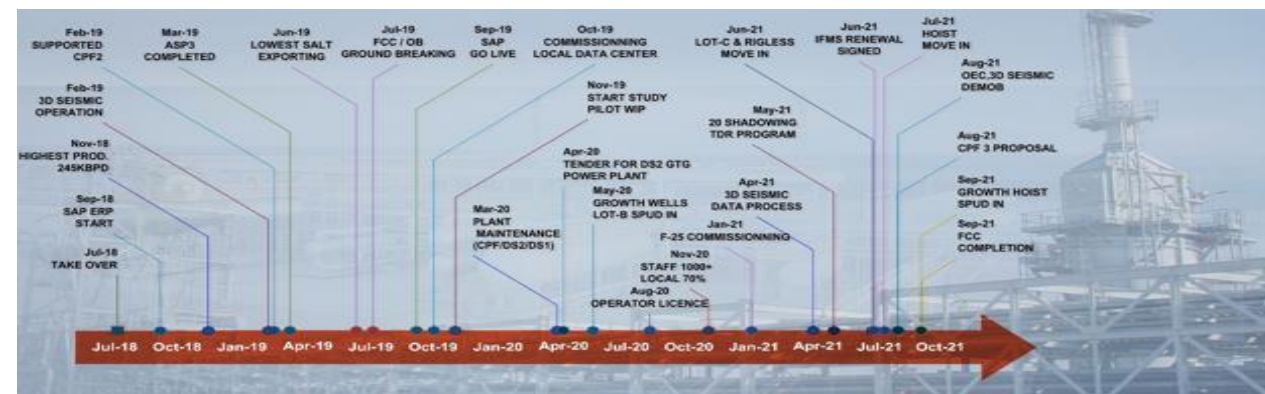

1. Oil & Gas Development Overall Solutions

— Anton Oilfield Management BU

- With a full set of oil and gas resource development technologies and professional talents in oil and gas field management, providing customers with optimized oil and gas field management and supporting services, helping them achieve maximum asset value.

MAJNOON Main Achievements

- In July 2018, Anton took over the Majnoon oilfield
- In June 2021, 2+1 year contract renewed
- 20 million without lost working hours
- The SAP data center goes online
- Take over of the GROWTH LOB / CI project
- FCC / Delivery of the office building

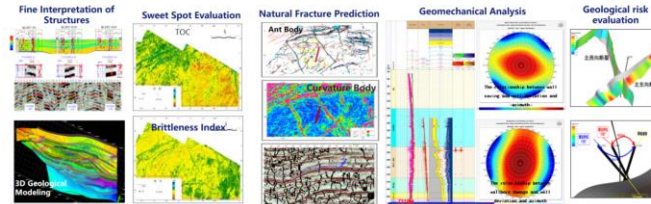

Oil & Gas Development, Simple and Efficient!

2. Stimulation, Efficiency Improvement Research and Optimization Solutions

— Anton Oil & Gas Development Research Institute

- Oil & Gas field development research institute keeps reservoir geology and Engineering as its core business, combines reservoir geology and engineering, featured in stimulation, utilizes digitalization and visualization methods, to provide clients with detailed research on efficient oil & gas development and real-time iteration services during construction and raise development efficiency, which helps clients hit target reservoir accurately, and maximize their reservoir assets value.

- > Reservoir evaluation technology service
- > Scheme design consulting service
- Full-scale fracture control fracturing technology
- Multi-scale fault block reservoir fracturing technology
- Tight carbonate rock fracturing technology
- > Special fracturing fluid technology service
- > Special temporary plugging materials technology service
- > Multifunctional proppant technology service
- > Multifunctional fiber technology service

- + Fracturing scheme design service
- + Real-time iterative fracturing operation
- + Fine control technology service
- + Well entry material service
- + Fracturing equipment operation service
- + Oil&gas testing and production operation service

- Production risk technology general contracting service
- Production risk engineering general contracting service

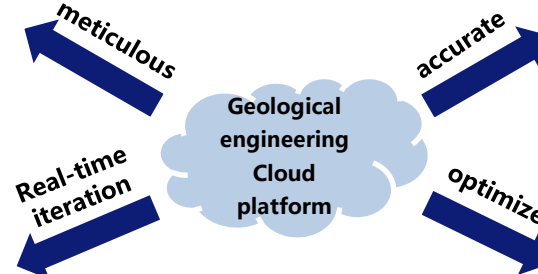

Service of Anton Oil & Gas Field Development Research Institute

- Fine reservoir geology research service
- Geological engineering Real-time iterative technology services
- Stimulation technology services
- Turnkey solution stimulation services

Fine Reservoir Research Services

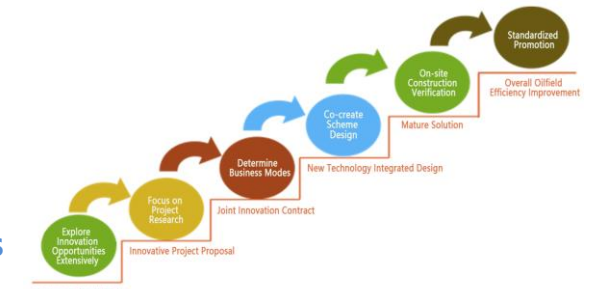

Geological engineering technology services

Optimization of Efficient Oil & Gas Development Plans

Fine Iteration, Increasing Production and Efficiency!

Stimulation technology services of oil & gas

- Organizational form: joint innovation with oilfield customers;
- Innovative sample: single-well project general contract project;
- Innovation: a solution for the target oil & gas blocks;
- Innovation benefit: to achieve breakthrough production effect of oil & gas Wells in the whole block.

Overall Solution Services for Stimulation

3. Visualized And Data-based Monitoring Solutions

— Deep Earth Insights DataTech Company

- Deep Earth Insights DataTech Company specializes in fiber optic technology, offering comprehensive geological reservoir evaluation and development engineering monitoring services that cover the entire oil and gas development process, from drilling and completion to production. These services facilitate detailed evaluations and precise engineering control throughout the oil and gas development process.

Visualized Data Monitoring Services

✓ Fiber Optic Monitoring Technology Services

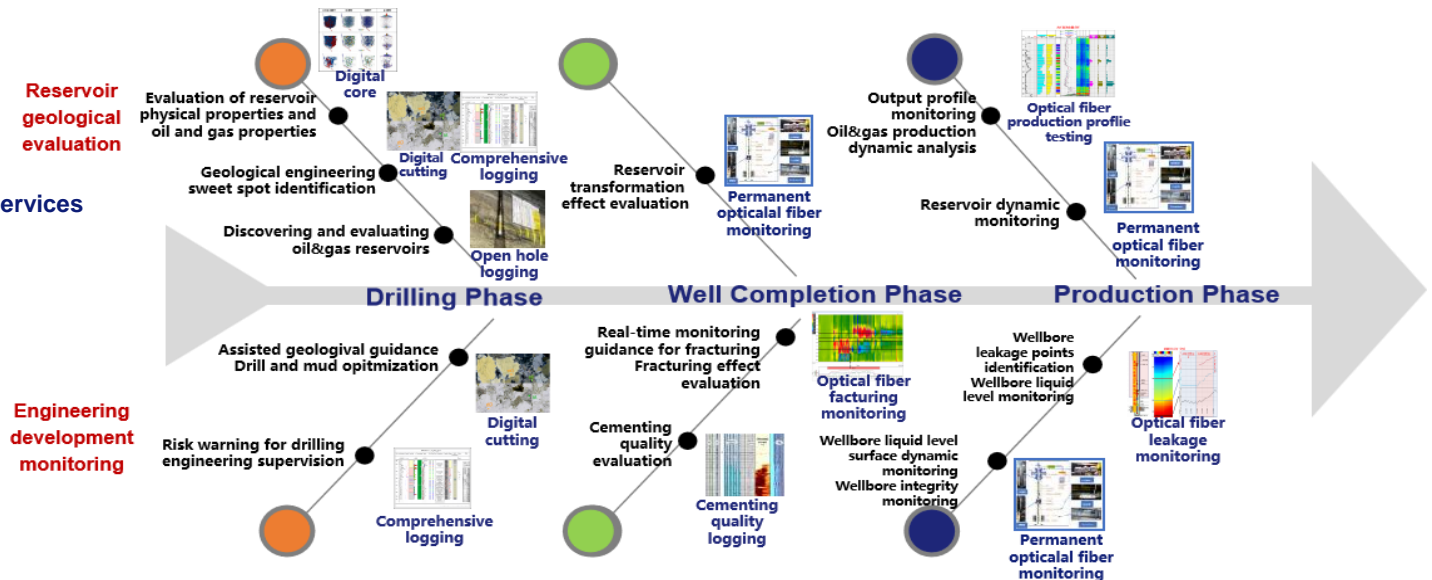

- ❑ Fiber Optic Output / Injection Profile Monitoring Service
- ❑ Fiber Optic Leak/Blockage Monitoring Services
- ❑ Gas Storage / CCUS / Geothermal Well Permanent Fiber Optic Services
- ❑ Fiber Optic Fracturing Monitoring Services
- ❑ Fiber Optic Pipeline Monitoring Services
- ❑ Permanent Fiber Optic Monitoring Services for Casing Annulus

✓ Digital Rock Technology Services

- ❑ Digital Debris Technology Services
- ❑ Digital Core Technology Services

✓ Logging and Monitoring Technology Services

- ❑ Wide-area EM Monitoring Services
- ❑ Casing Damage Evaluation Logging Services
- ❑ Horizontal Well Production Profile Logging Services

Development and Production Require Monitoring!

— A full series of featured services: Anton Drilling BU, Production Operation BU, Precede Petroleum Technology Co., Completion Technology and Products BU, Chemical&EOR Solutions LTD

Two Operations, Two Products

- Drilling Rig Services
- Intelligent Drilling Technology Services
- Mud Services
- Cementing Services
- Drilling and Completion Integrated Technical Services
- Oil and Gas Wells Integrated Production and Operation Services
- Production Well Sand and Water Control
- Fracturing Pump Injection and Production Enhancement Technology Services
- Continuous Tubing Technology Services
- Well Workover and Well Testing Services
- Sales And Services of Downhole Tools

**Full Range of
Featured Technologies**

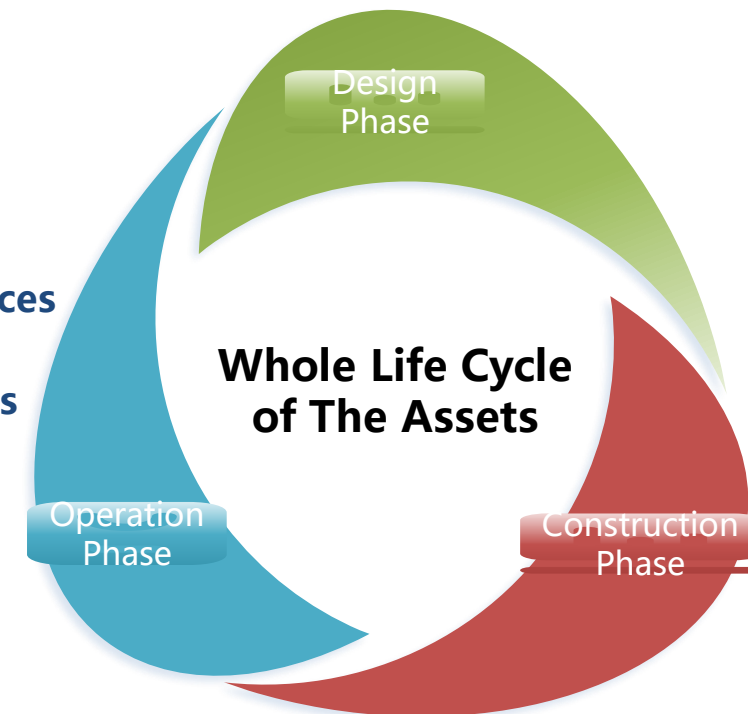

- Completion Tools
- Sand and Water Control Equipment
- Fracturing Tools
- Layered Injection and Production
- Artificial Lifting
- Wellhead Equipment
- Drainage and Gas Recovery
- Intelligent Oil And Gas Production
- Drilling and Completion Chemical Products and Technologies
- Increasing Production Chemical Products and Technologies
- Station and Gathering-Transportation Chemical Products and Technologies
- General Bulk Chemicals

—— T-ALL Inspection Group Co., Ltd

- With the capability of integrated TIC technology services in the whole process of oil & gas development, T-ALL is committed to providing customers with life-cycle quality and safety TIC solutions of oil & gas development assets.

Oil & Gas Development Quality and Safety TIC Services

- Oil and Gas Field Asset Integrity Management Services
- Drilling Tools and Drilling Equipment and Facilities Testing Technical Services
- Oil and Casing Inspection Technical Services
- Oil and Gas Engineering Construction Project Inspection Technical Services
- Offshore Platform Equipment and Facilities Testing Technical Services
- Oil and Gas Station Inspection Technology Services
- Oil and Gas Pipeline Inspection Technology Services
- New Energy Equipment and Facility Testing Technical Services
- Oil and Gas Measuring Instrument Testing Technical Services

All Oil and Gas Assets Need Inspection!

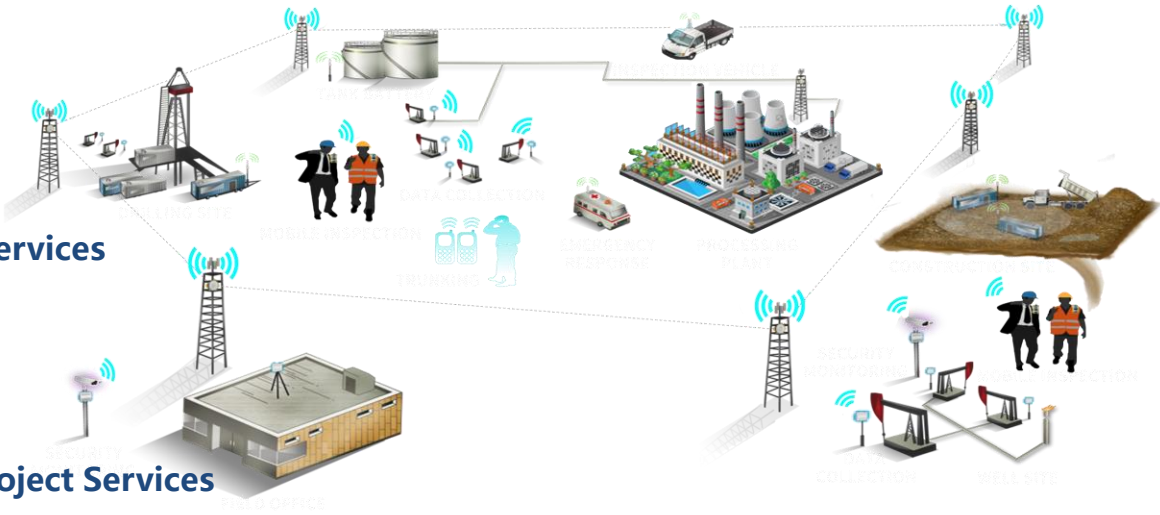

6. Oil & Gas Development AI Solution

— Anton Digitalization & Intelligence Industry Group

- Grounded in various application scenarios of oil and gas field sites, offers comprehensive and specialized digital intelligence solutions for oilfields. With the most reliable project implementation, the fastest delivery cycle, and the best cost-effectiveness, provide customers with professional accompanying services to help the personalized needs of digital oilfields.

Anton Six-Step AI Transformation Services

- 1. Full Staff AI Popularization Training And Transformation Consulting Services
- 2. Anton Oil&gas Generic Industrial Gpt Cloud Platform Services
- 3. Oil&gas Enterprise Self-built Gpt Cloud Platform Services
- 4. Enterprise Management Gpt Development Services
- 5. Digitalization & Intelligence Oilfield GPT Development Application Project Services
- 6. Oil&gas Development Operation GPT Application Project Services

Leading AI Transformation Service Provider In The Oil & Gas Industry!

7. Oil & Gas Green Development Asset Leasing Solutions

—Anton EASY Platform

- We invest in and provide end to end leasing solutions to oil and gas companies, empowering customers to use assets and obtain production without CAPEX.

Green Development, Anything is Leasable!

Oil & Gas Green Development Asset Leasing Solutions

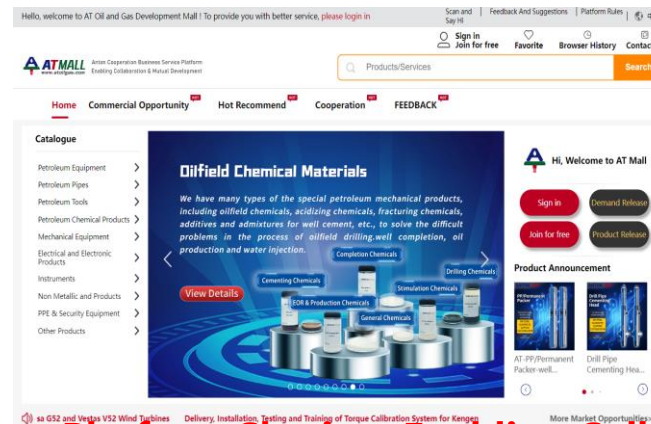

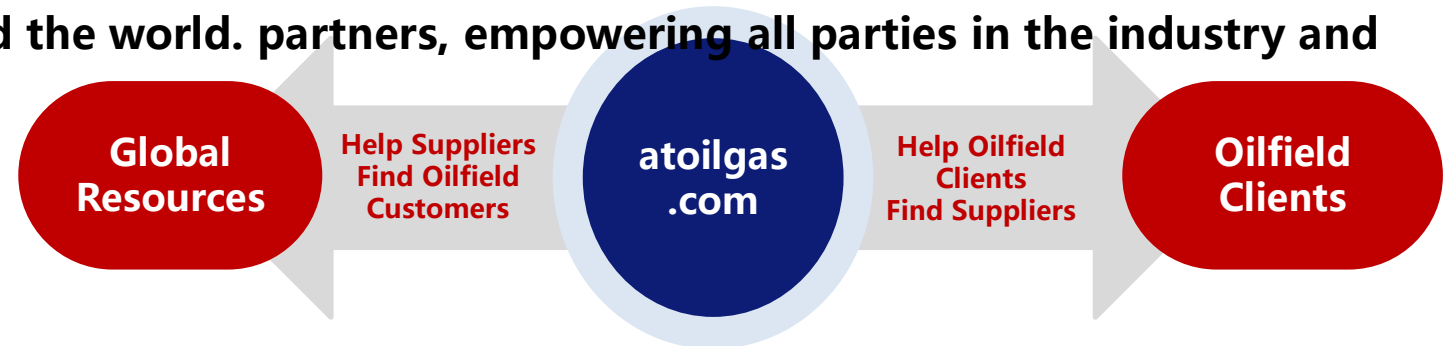

- **SHARED** Asset Services
- **ENERGY SAVING** Solutions
- Flaring Gas Recovery and Emission Reduction Services
- Investment and Operation of **Flexible** Treatment Facilities
- **GREEN** Energy Services
- Distributed **CCUS** Solutions

— AT Oil&Gas Technology Co., Ltd

■ Committed to continuing to build an online and offline oil and gas industry resource sharing platform, it has a series of e-malls and a network of marketing and logistics bases in more than 30 countries, more than 130 fully qualified business channel companies around the world, and more than 5,000 resource cooperation partners around the world. partners, empowering all parties in the industry and promoting mutual transactions.

- Channel Services
- Trade services
- Procurement Logistics Services
- Recruitment Training Services
- Human Resources Services
- Business Travel Services

Industry Resources , All in Platform!

Platform Sharing, Enabling Collaboration, and Common Development

9. Localized Natural Gas Value Chain Solution

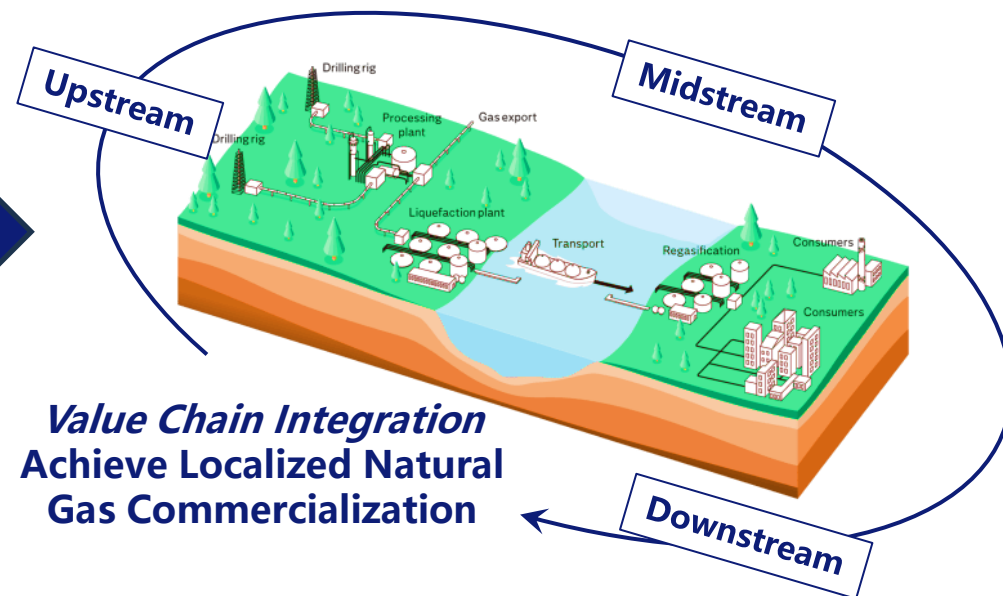

Mission: Achieve efficient commercialization of regional natural gas markets, empower local economy and community.

The Solution: Natural gas and associated gas development, processing and transportation, build downstream consumption ecosystem, offer finance, create localized natural gas commercialization value chain.

Target market: Countries and regions distant from global natural gas demand, **weak downstream natural gas consumption**, incomplete formation of natural gas value chain, but have **local economy with development potential and needs**.

Localized Natural Gas Value Chain Solution

- ✓ Local economy with development potential and needs
- ✓ Ample natural gas resources
- ✓ Demand for associated gas processing
- ✗ Distant from global natural gas demand
- ✗ Incomplete formation of natural gas value chain
- ✗ Small market size
- ✗ Weak downstream natural gas consumption

- Anton adheres to the philosophy of “QHSE is the first priority in Anton”, implements the highest quality standards of oil industry, and establishes QHSE management system with Anton characteristics according to OGP standard.

QHSE Vision, Approach, Values and Commitment

- Vision:** Zero defects, Zero accidents, Zero complaints.
- Policy:** Life, Environment, Clients, Excellence
- Values:** QHSE comes First
- Commitment:** Anton has always believed that QHSE is the company's core value

QHSE Certifications

- API Certification:** API Q1、API Q2、API 14A、API 14L、API 11B、API Spec 11D1、API 5CT、API 7-1, Etc.
- Passed the quality management system certification and obtained the ISO 9001:2015 quality management system certificate.
- Passed ISO environmental management system, ISO occupational health and safety management system and oil industry HSE management system certification, and obtained ISO 14001:2015, ISO 45001:2018 and SY/T 6276-2014 system certificates.

1. Adhering to high standards.

Be your high-quality friend.

Cultural Foundation: Following traditional values and universally recognized principles, respecting the values of the host country or region.

2. Through promoting innovation, Anton facilitates industry transformation for a better oil and gas sector.

Be your virtuous friend.

Vision: To be a model of efficient and harmonious development between people and the environment.

3. Anton expands empowerment and collaboration from within the company to broader horizons.

Be your sincere friend.

Mission: Helping others succeed.

4. Starting with caring for those around us, Anton builds a home and assumes responsibility.

Be your responsible friend.

Business Philosophy: Employee's well-being, societal progress, shareholder returns.

5. Anton is committed to precision positioning and solving critical issues.

Be your attentive friend.

Anton's core value ①: Customer-centered

6. Anton is committed to making every effort and overcoming difficulties.

Be your steadfast friend.

Anton's core value ②: Hard Work

7. Anton is dedicated to quick responses and lifelong learning.

Be your hopeful friend.

Anton's core value ③: Learning and Innovation

A model of efficient and harmonious development between both human and the environment.

- Anton has established an ESG management system in accordance with the GRI Standards established by the Global Sustainability Standards Board (GSSB).

Environment

- Environmentally friendly business model that helps clients reduce greenhouse gas emissions.
- Set emission reduction targets in accordance with the national "double carbon" policy.
